Call for Papers

Important Announcement: Due to the travel restrictions resulting from the spread of COVID-19, IEEE CoNTESA ‘22 will be held in a hybrid mode. Authors can opt for either attending the conference physically or presenting virtually, based on their preference. All matters related to the quality, publication and indexing shall remain unchanged. We are closely monitoring the situation. If any further adjustment is deemed to be necessary, detailed announcement will be made in due course.

The International Association for Educators and Researchers (IAER), a registered CIC (Community Interest Company) in England and Wales, is happy to arrange the Second International Conference on Computing, Networking, Telecommunications & Engineering Sciences Applications 2022 (CoNTESA ‘22), which will be held from 15th – 16th December, 2022, at University of Sannio, Italy.

The conference will draw together researchers and developers from academia and industry. CoNTESA ‘22 is technically co-sponsored by the IEEE (Conference Record #TBA) and the conference content shall be submitted for inclusion in IEEE Xplore as well as other Abstracting and Indexing (A&I) databases. For inclusion in the IEEE Xplore Digital Library, the papers must strictly adhere to the IEEE Conference A4 Paper size format (NOT US Letter) guidelines. IEEE will automatically check for adherence for each paper. The paper formatting instructions can be found at this link: http://www.ieee.org/conferences_events/conferences/publishing/templates.html. The easiest way to format your paper is to download and use the IEEE MS Word A4 template. Selected papers for consideration for further publication from the conference may be recommended to the following journals, as shown in the table below. This will be after they have been asked to be substantially extended and enhanced. However, the journals’ respective Editor-in-Chief and the members of the Executive Board shall make the final decision about the inclusion of the papers.

<table>
<thead>
<tr>
<th>IAER Journal Name</th>
<th>Publisher</th>
<th>Major Indexing / Impact Factor</th>
</tr>
</thead>
<tbody>
<tr>
<td>Annals of Emerging Technologies in Computing (AETiC)</td>
<td>IAER</td>
<td>Scopus, ISI ESCI (evaluation under process), CiteScore: 2.3 (2020).</td>
</tr>
</tbody>
</table>

There will be a range of events from keynote addresses, technical and student poster sessions, workshops and tutorials. The formal sessions will be supplemented by an excellent social excursion programme.

Paper Submission

Work in progress, research papers, survey papers, application and theoretical papers, poster presentations and position papers for the workshop are all welcome.

Full papers, with a maximum length of six pages, adhering to the IEEE conference paper formatting (please read Submit Paper), should be submitted using the Microsoft Conference Management Toolkit (CMT).

Scope of the Conference
Papers are sought on any topic in the spectrum of the conference theme, including, but not limited to the following:

Pervasive Computing and Internet of Things
- Internet of Things, Everything and Nano-Things
- Location-dependent/Personalized Application
- System Architectures and Platforms
- Embedded Computing with Applications
- Low Power, Energy-Aware Pervasive Computing
- Smart Devices
- Spaces and Objects
- Middleware Services and Agent Technologies
- Positioning and Tracking Technologies
- Intelligent Devices and Environments
- User Interfaces and Interaction Models
- Security and Privacy Issues for Pervasive Systems
- Ubiquitous Computing, etc.

Telecommunications and Earth Observation
- Remote sensing and applications
- Advanced data processing techniques
- Big Earth Data and Remote Sensing
- Multi sources Data Fusion
- Microwave earth observation systems
- Telecommunication Systems and Networks
- Cognitive Radio
- Cooperative Communications
- Antennas and propagation
- Reconfigurable Intelligent Surfaces
- MIMO
- Satellite Communications
- Information Theory and Coding Systems, etc.

Control Systems
- Control Theory and Applications
- Robotics and Autonomous Systems
- Intelligent Control
- Optimal Control
- Robust Control
- Adaptive Control
- Linear and Nonlinear Control Systems
- Complex Adaptive Systems
- Industrial Automation
- Control Systems Technology, etc.

Computing and IT
- Software Engineering
- Cloud Computing, Fog Computing and Big Data
- Information Systems
- Big data processing and architectures
- Microservices architecture
- Internet of Behaviours
- Business/Enterprise Architectures
- Mobile Computing
- Distributed Systems
- Knowledge Discovery and Data Mining
- Visualization and Computer Graphics
- Image Processing, Information Retrieval
- Natural Language Processing
- Artificial Intelligence, Machine Learning, etc.

Electronics, Circuits and Systems
- Electronics and Optical sensors
- VLSI and Microelectronic Circuit Design
- Embedded Systems
- Sensors and Sensing Systems
- System on Chip (SoC) Design
- FPGA (Field Programmable Gate Array) Design and Applications
- Electronic Instrumentations
- Biomedical and Bio-Inspired Circuits and Systems
- Smart Systems for Automotive
- Wearable and Implantable Devices
- On board systems for nanosatellite, etc.

Energy and Power Systems
- Low Carbon Power (Nuclear, Wind, Solar, Hydro, etc.)
- Low Carbon Transport (Fuel Cells and Hydrogen)
- Energy Storage and Network Balancing
- Grid Integration and Infrastructure
- Distributed Polygeneration
- Energy Efficiency and Energy Management
- Policy, Targets and Resource Efficiency
- Nearly Zero Energy Buildings
- Smart Energy Communities
- Integrating Finance, Economies and Energy
- Computing, Data and ‘Intelligent’ Design
- Micro-Grid Operation
- System Stability, Dynamics and Control
3rd International Conference on Computing, Networking, Telecommunications & Engineering Sciences Applications 2022
(ConTESA ’22)
15th – 16th December, 2022
University of Sannio, Italy
(With online presentation opportunity)

- Power System Protection and Relaying
- Restructuring of Power System, Electricity, etc.

Engineering Education and Sustainable Development
- EESD and Circular Economy
- Global Issues in EESD
- Overcoming Barriers for EESD
- EESD and Energy
- Stakeholders in EESD
- EESD and Life-long Learning
- EESD and Disciplinary Approaches

Economics, FinTech and Business Engineering
- Computational Economics and Finance
- Decision Support Systems
- FinTech
- Industrial and Systems Engineering
- e-Commerce and e-Business
- Business Information Systems
- Technopreneurship, Technology and Innovation
- Supply Change Management Technology, etc.

Registration
At least one author must register and physically attend the conference. Presentation via video-conferencing may only be allowed under special circumstances. For further details please see the registration link.

We look forward to welcoming you to CoNTESA ’22 at University of Sannio, Italy.

Yours cordially (on behalf of the organizing committee),

Conference General Co-chairs

Dr. Maaruf Ali, School of Computing, Engineering & Physical Sciences, London Campus, University of the West of Scotland, London, UK.

Prof. Silvia L. Ullo, Department of Engineering, University of Sannio, Benevento, Italy.
